

## **Training Day Registration Form**

*Club training days are designed to help our members with training in order to improve the performance of their dog(s) in the field. Also, members can learn more about our field trials so they feel comfortable participating and enjoying the fun.*

*The day will start at 9 am (earlier during hotter weather). We encourage registrants to indicate specific areas of interest so they can be addressed during the session. The class will be divided into two groups; flushers and pointers. The class will be conducted by club members who have a wealth of experience training their dogs.*

*The cost for the class is \$ 20 per dog for members which basically covers the cost of three (3) shooter pigeons each dog. The non-member price is \$40 each dog and includes the three (3) shooter pigeons per dog. You may elect to purchase extra pigeons but they must be ordered a minimum of three (3) days in advance of the class. Payment for the event must be received prior to the class. You can pay on line at [RMTSDC.com/entry forms and rules](http://RMTSDC.com/entry_forms_and_rules). Scroll down to Training Day Registration and Extra Training Birds. No refunds of cancellations three (3) days or less prior to the class.*
